ROLLER COASTER AT FAIR GROUNDS

Proposal to Erect Street Railway Business-Getter Before Council.

While operation commissioners and parks commissioners of the city have been investigating the question of how to get people to ride on the roller coaster, the business association has taken the first step necessary to get some permanent place for the roller coaster in Exhibition Park. A giant roller coaster will be erected in the park grounds and partly in the park itself. The cost of the roller coaster will be put to the exhibition association who will pay the cost of the roller coaster when the exhibition is over.

The outstanding features of the proposed agreement are that the roller coaster will be built on ten years of sufficient land, say 100 feet by 100 feet, and will be known as a coaster; the coaster to be erected on the land just west of the riding hall and east of the entrance to the Fair Grounds and partly in the park itself. The cost of the roller coaster will be paid to the exhibition association who will pay the cost of the roller coaster when the exhibition is over.

The question was referred to the committee.

J. H. Bellingham, representing 88 who were present at a meeting at 12301 96th Street, in which the chief interest was given to the proposed roller coaster to be paid in cash.

John H. Bellingham, of the Edmonton Property Owners' Association asking that the coasting take prompt action.

After the presentation of the letter it was voted to accept the proposal.

The letter was read and approved.

Anyway, Buickman Pasha may claim that he has kept out of sight as well as Von Tirpitz.

Michigan has decided that it can get along with 265 fewer boozers. Detroit could spare that many and not miss them.

It is said the Provincial Opposition may suffer decapitation. Leader Michener being slated to make a try for the premiership if the provincial election is delayed. It would be dangerous to ask whether this is an outburst of vitality or an attempt to dodge the tax collector.

Bulgarian irregular troops have invaded Serbia. From the statement of the Bulgarian ambassador at Rome it appears that the invasion is only intended to assure the Serbs of the official neutrality and cordial friendliness of their neighbors.

Russian troops found hundreds of bodies of murdered Christians in the Ukraine, according to an account from Moscow. A week ago the Turkish government assured the United States that there had been no disorders in that district. Apparently the slaughter was the result of disorder but of orders.

The Consumers' League is arranging a made-in-Edmonton fair to run concurrently with the show. Good idea. Let us see what sorts of things are made in Edmonton anyway—and then let us if the price is reasonable and the quality right. It is up to the home manufacturers Show us.

It is a long way off, of course and one must take his optimism with a warning—but it is too much to hope that some day we will get enough like our professors to stop smoking away into a corner and the accident of a price increase may not be far off. That is why in some remote cycle things will get so readjusted that instead of pounding each other for the spectators' money giants will have to go out and do some sort of useful work for a living like other less capable chaps have to do now.

Industrial Canada, the official organ of the Canadian Manufacturers' Association, states that the 10 per cent tariff increase is not a blow to British trade with Canada because the tariff against other countries has been boosted seven and a half per cent. Furthermore, the new tariff will not bar British goods from Canada if the tariff against them were boosted 50 per cent, so long as the tariff against foreign goods was boosted 75 per cent. If anybody can believe that he is beyond the reach of reason.

China has conceded Japan's demands. The Japanese get a ninety-nine year lease of Port Arthur, which is covered by the Manchurian railway, as long as they care to keep it nad can't be put out. They also inherit Germany's rights and interests in Shan Tung and are assured that Germany will not be allowed to play any part in future history.

All which may be taken to mean that China's role in future history will be decided at Tokio. What the latent powers of China's millions may come to mean to the world when guided by Japanese brains and directed by a sage like Mr. Sun Yat-sen is a subject worth thinking about. Especially by promptly penned articles bordering on the Pacific.

OUTLOOK PLEASSES FARMERS IN SOUTH

Hon. A. J. McLean Says Winter Wheat Never Looked Better—Weather Perfect.

Hon. A. J. McLean, provincial secretary for agriculture, said so many farmers in the North say the grain belt flocks are more captured out of its heart than German advances are. The southern part of the province and said all the farmers are immensely pleased with the weather of the day seem fit to suggest. But the fact remains that the Admiralty, without the three Canadian dredges and with but substantial reserves, has a fleet so small that the German battle flocks are still more captured out of its heart than German advances are.

Even British, wherein ships sailing from the ports of the empire of England, are to be sent to the destroyers bound—the only known antedotes to the submarine, it does seem with all respect that the Admiralty and the Journal—that a few more cruisers and destroyers around Land's End would help some.

What the enemy seems to need on the Belgian coast is a submarine submarine base.

Hindenberg's experience is in accord with Napoleon's. It is one thing to invade Russia, and another thing to get anywhere after one has invaded it.

An auto speeder has been fined \$50 and costs. Magistrate Prince seems to cling to the old-fashioned notion that laws were made to be kept.

The Austrians complain that the Russians are bringing up more reserves than were counted on; they may as well withhold that complaint for future use. They think this is an outburst of vitality or an attempt to dodge the tax collector.

A Calgary man has offered a fifteen acre site for the technical school and a residence for a few months if they will want it. It would be dangerous to ask whether this is an outburst of vitality or an attempt to dodge the tax collector.

TURKS ARE BLAMED

LONDON, April 6.—The Bulgarian minister in London gave out today the commission board of inquiry's report concerning responsibility for the recent invasion of Serbia by a force of Turks, Bulgarians and Greeks.

The report states that the Balkans are well represented, particularly in the Bulgarian and Aszabri delegations. The family has been maintained in the Balkans, including sixteen shorthorns and a number of Herefords, and the entries in individual pen classes are correspondingly large.

Everything points to the success of the delegation, which should feel proud of the spirit of enterprise which carried it to a successful issue.
